

MUSICAL INGREDIENTS OF A LOVE SONG

The Dual Sides of Love

LOVE SONGS

- Feature acoustic guitars, strings or a piano
- 90% of Pandora's most-played love songs are written in a major key that have a happy affirming sound
- A tempo of 82.28 beats per minute makes the perfect rhythm for a love song.

LOVE STINKS

- Nothing says Love Stinks like an electric guitar!
- 33% of electrified break-up songs feature more distortion than love songs.
- Fewer than 50% are written in a minor key or non-committal (not clearly major or minor!)
